MEMORANDUM FOR: [] ERS

SUBJECT: [] Study on [] Oil"

25X6A

1. I am returning the [] Oil Study to you after having circulated it among interested personnel in the Agency.

2. You will be interested in the following comment from one of the readers:

"Qualitative data in subject study are largely conjectural with respect to current and future conditions in the [] industry. No documentation is given to support statements made and opinions expressed. However, the data indicate a good familiarity with the subject matter. It is of limited value to [us] because of its political rather than economic emphasis."
